

**ALBERT:**

There's not a lot of hours of sunshine right now, and we are having difficulty growing enough food.

**NADYA:**

We have a research area set up on the other side of the planet. We need a quicker way to get back and forth.

**AMAYA:**

I want to visit my friends on the other side of the river, but swimming across doesn't seem safe.

**ASIA:**

Schools haven't been set up yet, but my friends and I want to keep learning.

**AKI:**

This planet has different germs and viruses. We need to make sure we can stay healthy.

**BASIL:**

With all of the construction of our new city, there's a lot of noise and traffic. We want to find a way to make it better.

DALIA:

I'd like to become friends with Basil, but he speaks a different language. How can we communicate with each other?

RAINA:

We don't have any police here. How can we help people live together peacefully?

DIMA:

We don't have a great system yet, and some of our food has begun to spoil.

ELIANA:

We don't have enough good land to grow our food on.

EDWIN:

We don't want to cut down a lot of trees to build things.

FRANKLIN:

The food we are growing isn't close to the river, and we are having to make long trips with buckets to water the plants.
