

Ohio Regional Qualifying Tournament Registration FAQ

Q. Who can register for a qualifying tournament in Ohio?

A. Only Ohio *FIRST*® LEGO League teams that have registered for the 2017 HYDRO DYNAMICS season may participate in the Ohio tournament system.

Q. How many official qualifiers can my team attend?

A. **Short Answer:** one to three tournaments, but **only one regional qualifier.**

Regional Qualifiers (1st level qualifiers): These are the events that you will actively register to attend. They range in size from as small as 12 teams to as large as 30 teams. The regional qualifying tournament season in Ohio runs from as early as November 11 through December 17. Teams may only attend one regional qualifier. Approximately 30% of the teams that attend these tournaments will advance to the district level tournament (2nd level qualifier). *FIRST* LEGO League's [Advancement Policy](#) will be used to advance the remaining teams to the next level.

District Qualifiers (2nd level qualifiers): Teams may only compete at a district qualifier if they have first qualified to advance from a regional qualifier. District qualifiers range in size from 20 to 40 teams, depending on the percentage of teams that compete within that district. District qualifiers are held in January. Please check to see which district tournament your team would advance to from the regional tournament you attend. Approximately 30% of teams will advance from the district to the *FIRST* LEGO League Ohio Championship. *FIRST* LEGO League's [Advancement Policy](#) will be used to advance the remaining teams to the next level.
