

Managing of SPACE JUNK!

Objective: You are an engineer tasked with designing a new spacecraft. The spacecraft's mission is to clean up, or manage, space junk.

Task: Keeping Newton's laws in mind, and all the various types of space junk, what apparatus, tools, capabilities, and design would you include in your spacecraft? Draw it out, label, explain, make notes, etc.

A large, empty rectangular box with a thin blue border, intended for the student to draw and label their spacecraft design. The box occupies the lower two-thirds of the page.
