LEGACY Craftsman Camp

LEGACY Craftsman camps are underway at WPAFB, Eglin, USAFA, and Hill. Campers between the ages of 11 and 15 have enjoyed activities like Raspberry pi, robot sumo, soldering, boomilever, hydraulic pneumatic powered devices, and egg launch. In July, AFOSR will hold Craftsman camps. Scientists and engineers from the respective bases provided demonstrations and hands-on experiences to the campers.

STARBASE Wright-Patt was excited to welcome rising students in grades 5, 6, 7, and 8 to the first round of free STEM camps! 5th and 6th graders explored food chemistry and rocketry, while the 7th and 8th graders learned about the importance of hydraulics, air pressure, and Mars rovers. We look forward to the next group of students in July!
